**Strobis, Paul (Paratransit) (to Everyone):** 11:08 AM: I would like to comment please

**Ross Silvers, PSTA (to Everyone):** 11:10 AM: T&E vs. all AOR need to look-at "all trips by CTC & its CTC Operators", not only TD-paid because these are all truly coordinated & directly reduce unmet need for TD trips

**Julia Davis (to Everyone):** 11:20 AM: I'm concerned about the complexity of this Trip Grant allocation formula effort, too. (I appreciate all the work that is going into this Study, and the openness you are using, to do this.) I have watched the development of the AOR all these years, and I'm still not convinced it is reported consistently across all CTCs, (since we are still defining/clarifying today, what is a Purchasing Agency, and what is a Coordination Contractor.

**Angela Bradley (to Everyone):** 11:25 AM: I agree with previous comments. All trips provided by the CTC should be counted. Those trips show an unmet need. I am concerned with our base data being 2019 because we had a huge impact by a Cat 5 hurricane. Did you look at 2017/2018 data and account for the huge drop? Lastly, I do not understand how group trips are being counted? Angela Bradley-Bay County CTC.

**Lisa Bacot (to Everyone):** 11:27 AM: Good points, Angela!
